

## Dear Professionals,

GORD is pleased to announce the launching of its state of the art online sustainability community platform "**LinkMe**".

**LinkMe**, is established for professionals to manage their Memberships, CEU's and Qualifications.

**LinkMe** members have the power to create a dynamic profile, participate in events, share ideas & experiences, access resources and expertise – and, most important, connect with other members!

**LinkMe** will be used to track memberships status of individuals as well as corporates holding Service Provider licenses.

*Professionals are now able to join LinkMe:*

- Holders of GSAS-CGP license will receive an email from LinkMe for account activation
- New members can join LinkMe as Green Advocates
- LinkMe members can join groups of interest based on their profession
- Groups administrators will be allocated for every group

For corporates holding Service Provider licenses, their profiles will be activated soon and notification emails will be sent accordingly.

**For more information, please visit [www.linkme.qa](http://www.linkme.qa)**

**Sustainability has a community, be part of it !**
